

PREPARING FOR THE **FUTURE**

## All-In-One Wireless Monitoring Solutions

Operating and managing an industrial facility or portfolio efficiently is challenging with financial expenditures always a high priority. There are many aspects that could be automated without having to expend precious (and costly) human resources to manually monitor building systems and security.

V2 Solutions, Inc. offers a remote monitoring solution for those who need to know instantly if there is a problem. For example: Our wireless system monitors; server rack temperatures, server room humidity levels, detects water under sub-flooring, monitors office environments, vacant industrial buildings, doors and windows and monitors unauthorized access to specific areas. V2 Solutions, Inc. provides alerts via SMS text and Email when these specified conditions are not met.

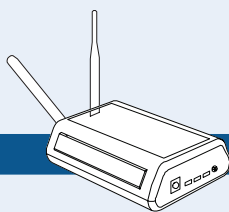

### Why Use V2 Solutions, Inc. Remote Monitoring Solutions?

- > V2 Solutions Inc will provide and install all sensor and monitoring equipment
- > Wide Variety of Wireless Sensors for Various Applications
- > Free Online Monitoring Solution (Includes SMS Text and Email Alerts)
- > Save Time and Money Through Energy Efficiencies
- > Prevent Costly Damages to Hardware and Facilities
- > Monitor Access to Vacant Facilities
- > Monitor From Anywhere Via Web and Mobile Apps (Coming in 2019)

### How Does It Work?

1. Attach sensors to "things" you want to monitor.

2. Plugs in the wireless gateway.

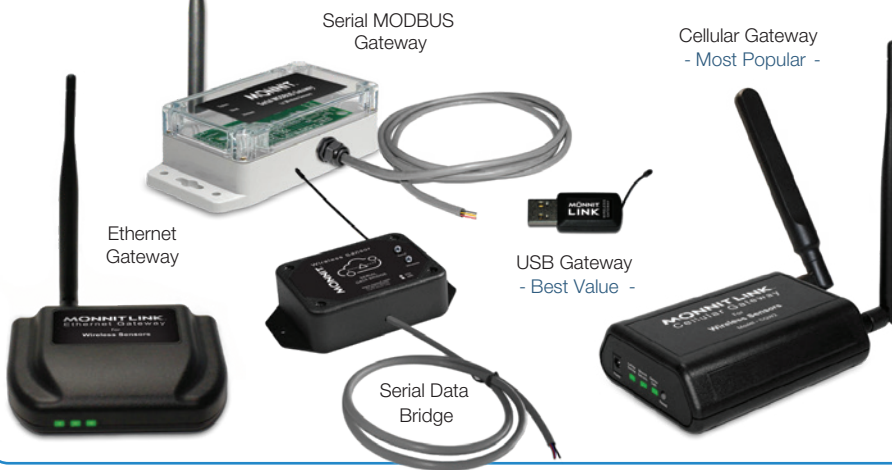

3. Sensor info shows up online at [www.v2solutionsinc.com](http://www.v2solutionsinc.com)

4. Setup and receive alerts when something goes wrong.

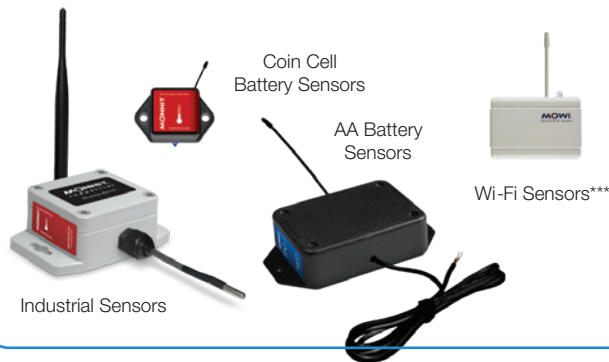

## 1 Wireless Gateways

- Use up to 100 wireless sensors with one V2 gateway
- Different versions available
  - Cellular Gateway (CDMA or GSM)
  - Ethernet Gateway
  - USB Gateway
  - Serial MODBUS Gateway
  - Serial Data Bridges
- Cellular gateways are available with 24 hour battery backup
- 250 - 300 ft. device range\*

## 2 Wireless Sensors

- Over 50 sensor types available
- 250 - 300 ft. device range\*
- Up to 10 years battery life\*\*

## 3 Monitoring Software

Online sensor monitoring and notifications are included with all wireless sensors and our mobile apps (coming in 2019) allow for “on-the-go” monitoring. V2 Solutions, Inc. will provide reporting on data per facility or across portfolios for KPI information.

\* Actual range varies depending on use.

\*\* Battery life is affected by reporting frequency (heartbeat), sensor type, distance from gateway and other variables.

\*\*\* Wi-Fi sensors connect directly to existing Wi-Fi networks without the need for a V2 Solutions gateway, so no other equipment is needed.

## Additional Products

Interested in control solutions for your wireless sensor network? Do you want local alerts and notification when there is an issue? Check out the latest V2 Solutions, Inc. wireless products and accessories.
